

Quick-Start Cheat Sheet

Bonus — Founding Bundle exclusive

Four systems, one page. Don't know where to start? Start here.

1. Pick ONE system for this week

Not all four at once. Start with whichever page solves today's specific problem.

Losing track of time?

Start with the Time-Blindness Timeline. Fill it in each morning.

Can't get motivated to start?

Start with the Dopamine Menu. Pick your reward before the task, not after.

Today is just too much?

Start with Low-Spoons Mode. Three things, max. That's the whole system today.

Want the full daily/weekly structure?

Start with The ADHD Life OS — it's the complete system the other three are drawn from.

2. Give it 3 days before judging it. 3. Message us anytime — we reply fast and we mean it.
