

Dopamine Menu

Fuel, not an afterthought.

Motivation isn't a personality trait — it's fuel. Build your own menu of rewards below, then pick one before you start a hard task, not after you're already burnt out.

SMALL

2 minutes

favorite song · stretch · text a friend
· a snack you like

MEDIUM

15-30 minutes

an episode · walk outside · a hot
drink, slowly

BIG

save for real wins

that thing you've been eyeing · a
lazy afternoon · dinner out

How to use this: write in rewards that are actually yours — not what a productivity influencer says should motivate you. If it works, it belongs on this page.

Reward Tracker

4 weeks — mark a box each day you followed through

No streak-shaming here. A gap in the tracker is just a gap — it doesn't erase the days you did follow through. This is for noticing your own patterns, not grading yourself.
